

SCHOOL SELF CHECK-IN KIOSK

Make Lasting Impressions

Walking into your school is a breeze with GuestVision's self check-in kiosk! Transform your waiting area with a customer-facing PC or tablet that allows regular and walk-in guests to check in or add themselves to wait lists. A quick and easy process reduces peak waiting times and minimizes time with the stylist. This upgraded "take a number" system also features priced on-screen buttons to promote upsells and streamlined data capture for enhanced marketing. Train your students on the latest in technology to increase guest satisfaction!

Customized Branding

Customize your display to show the services and products you want guests to select. Add your school's logo to the welcome screen and choose the guest information you would like to capture.

Enhanced Marketing Data

When guests are able to enter their own information, they tend to provide more accurate and complete data. On-screen data capture ensures their data is instantly stored for use in future target marketing campaigns to help improve guest retention.

Check In Every Guest

Digitally tracking each guest makes walkouts less likely with up to the minute status. Self check-in lowers the risk of theft while reducing service time and costs. Streamline operations for happier students & guests.

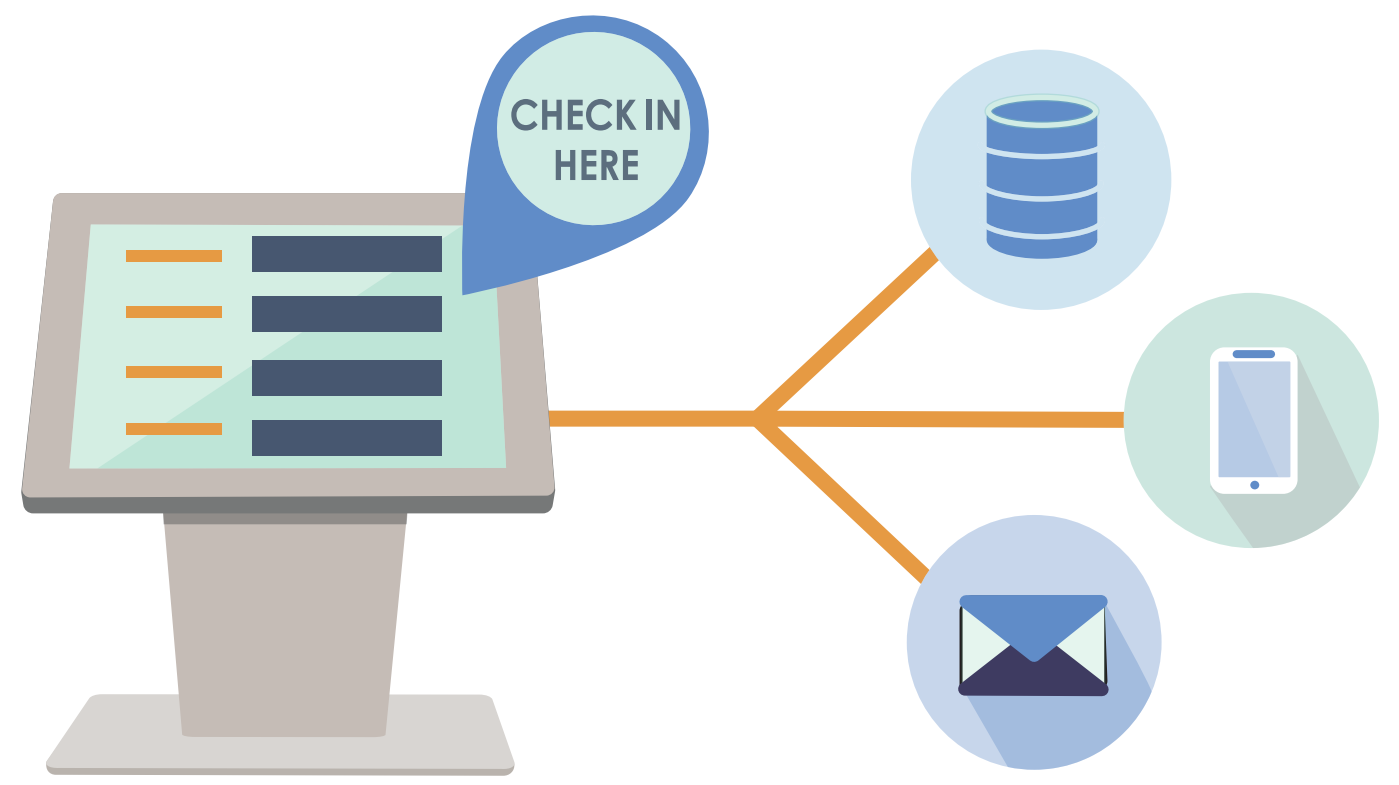

Obtain and Store Customer Information with Ease.

Your school requires all guests to sign liability waivers, so why not store their signatures digitally?

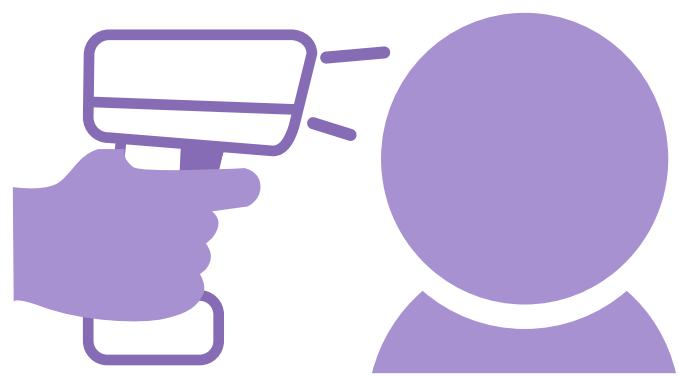

GuestVision's kiosk includes on-screen signature capture as a required part of the check-in process. No more wasting paper, losing files or wondering if every signature is being collected—we'll help you stay compliant.

COVID-19 Liability Waivers

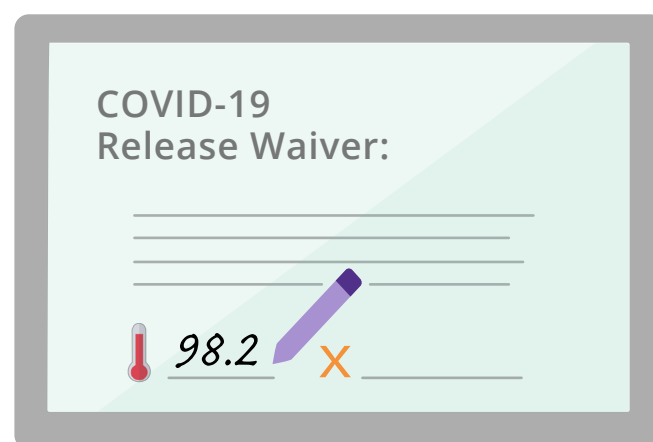

with GuestVision's Self Check-In Kiosk

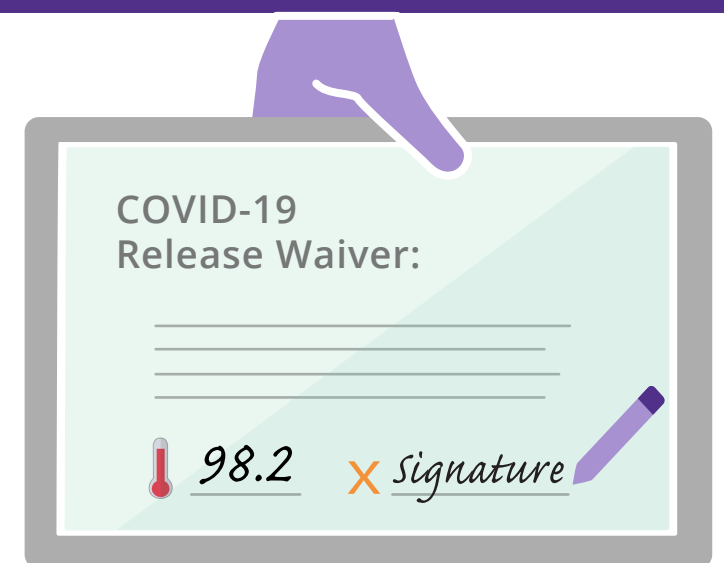

Maintain safety requirements in 3 steps

Take temperature of incoming guests according to current guidelines

Use a tablet to manually write in the temperature before guest signature

Signature and temperature are saved with client's information

Did you know?

Ways Self Check-In Kiosk enhances business.

Enhanced Marketing

When guests are able to enter their own information, they tend to provide more accurate and complete data. Use your guest's contact information in future target marketing campaigns to help improve retention with repeat business.

Customized Branding

You can customize your display monitor to feature the services and products you want guests to choose from. You can also add your school or salon's logo to the welcome screen and choose the guest information you would like to capture.

Check In Every Guest

Digitally tracking each guest that checks in also requires them to check out, making walkouts less likely and live status updates provide transparency. With Self Check-In, you can lower the risk of walkouts and theft while reducing service time and costs.

Eliminate manual work for your guests and your business

GuestVision's Self Check-In Kiosk includes on-screen signature capture as a required part of the check-in process. No more wasting paper, losing files or wondering if every signature is being collected—we'll help you stay compliant.
